Detailed Action

1. This Office Action is submitted in response to the Amendment filed 5-15-2009, wherein claims 4 and 10-12 have been amended. Claims 1-19 are pending.

Examiners Response to Arguments

2. The examiner agrees with the arguments filed 5-15-2009 that the prior art cited in the previous Office Action fails to disclose the claimed invention and the rejections therein are hereby withdrawn.

Allowable Subject Matter

3. Claims 1-19 are allowed

Examiner's statement of reasons for allowance

The following is an examiner's statement of reasons for allowance:

4. The prior art discloses a beam current measuring device that uses a magnetic field sensor such as a SQUID to measure the amount of magnetic flux generated by the beam current, where the flux is measured as the change in the amount of current required to maintain a constant voltage across the SQUID based upon the value of a magnetic flux conversion coefficient. (See for example, USPN 6,320,369 to Hidaka and USPN 5,285,155 to Ueda). However, the prior art fails to show such a device, where the beam current measurement is based upon a magnetic flux/feedback current conversion coefficient and a magnetic flux sensitivity value.

5. Claims 1 and 4 are allowed because the prior art fails to show a beam current measuring device that uses a magnetic field sensor, where the beam current measurement is based upon a magnetic flux/feedback current conversion coefficient and a magnetic flux sensitivity value.

6. Claims 2, 3, and 5-19 are allowed by virtue of their dependency upon allowed claims 1 and 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications should be directed to Phillip Johnston whose telephone number is (571) 272-2475.
